

Please note that you need to create an account if you are a new user or log in to your account if you are a returning user.

1. Log in, or create an account
 2. If you have not created a vehicle yet in your account, create one:
- Go to the “manage my vehicles” section and add a new vehicle.

- Choose a nickname for your vehicle (or device if you are buying a map for a portable device).

- Pay attention to the device ID or VIN – any error would lead to either a wrong activation code being generated or the inability to generate the code. For example, do not enter “l” instead of “1” or “O” instead of “0”.
