

PEUGEOT

PEUGEOT ALERT ZONE NAVIGATION SYSTEM GUIDE FOR TOUCHSCREEN

PEUGEOT ALERT ZONE NAVIGATION SYSTEM ON TOUCHSCREEN TABLE INSTALLATION GUIDE

This document outlines the procedure for purchase, download and installation of the Peugeot Alert Zone map updates and databases from the <http://peugeot.navigation.com> site.

1. REQUIREMENTS

1. A Peugeot vehicle equipped with a touchscreen navigation system
2. Automatic installation of Alert Zone using the Install Wizard requires the use of a Mac or a PC, as well as administrator access for the installation of Adobe Flash and Adobe Air (see required configurations)
3. A blank USB drive

2. PURCHASE AND ACCOUNT CREATION

Select your vehicle on the <http://peugeot.navigation.com>

Select the desired product: Peugeot Alert Zone or downloadable map updates

Follow the instructions to create a user account and finalise the purchase.

The user account gives you access to your purchased downloads and your activation codes for digital rights protected products.

308 2012 WIP NAV / CONNECT NAV - AVAILABLE PRODUCTS

WIP Nav Peugeot Alert Zone – Complete removal

€ 0.00

WARNING: This file will irreversibly remove the risk areas of all the countries you currently have on your GPS system.

[Add to Basket](#)

WIP Nav Peugeot Alert Zone November 2013

€ 7.99

This update procedure allows you to localise 25,738 sets of Peugeot Alert Zone POI coordinates in Europe (15 countries including France, refer to the list in the detailed description).

[Add to Basket](#)

In compliance with the new regulations, the data that is available for France ensures that you are alerted when you enter a danger zone.

Please note: if your navigation system contains the coordinates for fixed speed cameras in France, these coordinates will be replaced by the danger zones after installation of this file.

WIP Nav Peugeot Alert Zone 12 Month Subscription

€29.99

€ 24.00

Peugeot's Alert Zone database is updated each month: this subscription entitles you to 12 downloads during the period of one year. You receive an email informing you of the availability of each new update. The database covers 15 countries in Europe (please refer to the list in the detailed description).

[Add to Basket](#)

In compliance with the new regulations, the data that is available for France ensures that you are alerted when you enter a danger zone.

Please note: if your navigation system contains the coordinates for permanent radar (speed) traps in France, these coordinates will be replaced by the danger zones after installation of this file.

4. PREPARATION OF THE USB DRIVE

The USB drive used to download Alert Zone onto must be in FAT 32/MBR format for the system to recognise it.

Reformatting the USB drive before copying map updates onto it will ensure you avoid any system issues.

Note: formatting the USB drive will delete any files currently stored on it.

In Windows:

- Insert the USB drive into your computer
- Launch File Explorer (press the 'Windows' and 'E' keys at the same time)
- Right click on the USB drive, then 'Format' in the pop up menu
- Select 'FAT 32 (default)' as the file system, then click on Start

2. DOWNLOAD

Alert Zone or map updates can be downloaded from the 'Confirm your order' page after purchase.

You can also access them at any time from 'My account', in the 'Show my order' section.

Note: Alert Zone (for non-subscribers) is available for 45 days following purchase, or up to a maximum of 3 downloads.

There are two installation methods:

- **Install wizard (recommended):** a wizard guides you through the download and installation process. This is the recommended method
- **Direct download (for advanced users):** unzip and copy the files onto the USB drive yourself.

Installation wizard

If you are using the installation wizard you must make sure you have installed Adobe Flash and Adobe Air onto your computer beforehand.

Click on 'Installation wizard'. A pop-up window will appear.

NB: If the badge opposite is not displayed, this means that the Adobe Flash plug-in is not installed on your computer or that the required version is too old. Click on the link displayed and follow the instructions. You will have to restart your browser.

First installation:

If Adobe Air is not yet installed on your computer, click on 'Yes'

Click on 'Install', 'Continue' and 'I agree' to install the installation wizard and Adobe Air

Click on "continue"

Subsequent uses:

You will not be required to reinstall the wizard or Adobe Air for subsequent uses. Click on 'Open' then 'Run Now'

The installation wizard will start.

Insert the USB drive into your computer, the 'Continue' button will appear.

Click on 'Continue'.

PEUGEOT ALERT ZONE
NAVIGATION SYSTEM ON TOUCHSCREEN TABLE
INSTALLATION GUIDE

<p>Select your USB drive and click on 'Continue'</p>	
<p>Wait for the file to be downloaded onto your USB drive</p> <p>For an Alert Zone file, this generally takes a few minutes</p> <p><i>NB: some network configurations, such as internet proxies used in some companies, will not allow you to use the installation wizard. If this is the case, install the file manually.</i></p>	
<p>At the end of the installation, click on 'Finish'.</p> <p>You may then remove the USB drive from your computer ('Safely remove storage' in Windows or drag it to the Trash on Macs - please refer to your computer's user guide)</p>	

Manual download

Click on the 'Direct download (for advanced users)' link. Your file manager will ask to download a ZIP file to your chosen drive.

Unzip the content of the file downloaded onto the USB root directory:

- Open the downloaded file
- Copy the content of the ZIP file: hold down 'CTRL' and 'A' to select, then 'CTRL' and 'C' to copy
- Paste into the USB drive: right click on the USB drive in File Explorer then paste

NB: the file management system does not support compressed files, the update will not be recognised if the ZIP file is copied straight onto the USB drive

5. INSTALLATION ONTO THE NAVIGATION SYSTEM

Installation

Insert the drive containing the Alert Zone files into the USB port on the navigation system.

The navigation system will detect the update automatically

Launch the update by clicking on 'Yes'.

Alert Zone is then installed onto the navigation system's internal memory.

Once the installation is finished you can remove the USB drive from the navigation system.

<p>Display of alerts (while route guidance is off)</p> <p>Alert Zone functions even when route guidance is off.</p> <p><i>* In accordance with regulations in force in each country, it may be prohibited to display information on fixed speed cameras and cameras at traffic lights.</i></p> <p><i>In France, only Alert Zone is authorised.</i></p>	<div style="display: flex; justify-content: space-between; align-items: center;"> <div style="text-align: right;">Fixed speed cameras*:</div>  </div> <div style="display: flex; justify-content: space-between; align-items: center; margin-top: 10px;"> <div style="text-align: right;">Cameras at traffic lights*:</div>  </div> <div style="display: flex; justify-content: space-between; align-items: center; margin-top: 10px;"> <div style="text-align: right;">Entering an Alert Zone*:</div>  </div>
<p>Display of Alert Zone</p> <p>An audio and/or visual alert (depending on which configuration options you have chosen) warns you when you are approaching an Alert Zone.</p> <p>When you cross the icon, the alert disappears, meaning you are in a Dangerous Alert Zone.</p> <div style="display: flex; align-items: center;">  <div style="margin-left: 10px;"> <p>Dangerous Alert Zone are predefined with lengths of 300m in built-up areas, 2km on roads outside built-up areas and 4km on the motorway.</p> <p>Where the Alert Zone only applies to vehicles coming the other way, the Alert Zone icon is displayed but the alert itself is not activated.</p> </div> </div>	<p style="text-align: center;">When approaching a Alert Zone:</p>  <p style="text-align: center;">After the icon is displayed  you are in the Alert Zone</p>
<p>Display speed camera alerts</p> <p>In countries in which the display of this information is not prohibited, the navigation system can be set up to alert you when you are exceeding the speed limit when approaching a speed camera.</p>	<div style="text-align: center;">  </div> <div style="text-align: center; margin-top: 10px;">  </div>
